STATE OF MARYLAND.

COMPTROLLER'S OFFICE.

TREASURY DEPARTMENT,  
*Annapolis, Md., January 6th, 1882.*

*To the Honorable the General Assembly of Maryland:*

I respectfully submit my Report of the operations of the Treasury Department during the last fiscal year, ended the 30th day of September, 1881.

At the beginning of the year there were in the Treasury proper, \$513,026.36 ; the receipts during the year were \$1,996,641.08 ; the disbursements were \$1,757,469.15 ; and the balance on hand at the end of the year was \$752,198.29 ; to this balance should be added the cash to the credit of the Free School Fund, \$13,584 87, and to the credit of the General Sinking Fund, \$18,358.72, and to the credit of the Treasury Relief Sinking Fund, \$2,479.36 ; making the total amount in the Treasury, in cash, Sept. 30th, 1881, \$786,621.24.

Beside this cash, the State had at the end of the year, invested in her own bonds not yet due, in the General Sinking Fund \$154,935.84, and in the Treasury Relief Sinking Fund \$58,304.16, and in Baltimore City and other stocks held to the credit of the Free School Fund \$302,149.78 ; making the total of these investments \$515,389.78.

Added to these, the State holds prompt, interest paying securities amounting to \$3,461,085.70 ; and her collecting officers are due her, in round numbers, \$1,400,000.00.

The funded debts of the State amount to \$11,257,560.69, and her unproductive investments to more than double that amount.

The interest paid on her funded debts during last year, including a cost of \$20,663.61 for exchange and commission on her sterling debt, amounted to \$643,340.27; of which sum she paid to herself, as interest on her own bonds which she had taken up in advance of their maturity, and which constitute her "Sinking Funds," \$11,230.85.

There is no past due debt outstanding; \$24,000 of the 5 per cent. currency debt, which matured in 1880, were called in and interest stopped thereon on the first of last April, and were presented and paid in the latter part of the year. The debt which falls due next is the "Defence Loan." The amount of it is \$3,326,750.66, and it matures on the first day of January, 1884. The attention of the last General Assembly was called to this loan; and authority was asked to fund it into a new loan, at a lower rate of interest than 6 per cent., which it is bearing. That General Assembly accordingly passed the Act of 1880, chapter 232; the main feature of which is the creation of a new loan, not to exceed \$3,000,000.00, bearing interest not to exceed  $4\frac{1}{2}$  per cent., redeemable in fourteen years from the date of issue, the proceeds thereof to be applied to the redemption and payment of the "Defence Loan." Authority is also given to exchange the new for the old loan at par. No offer has yet been received to exchange at par, and no issue has yet been made of the new bonds. It is submitted that the three millions of this debt thus provided for can be funded at such a reduced rate of interest—4 per cent., or perhaps less—that in the fourteen years the saving in interest alone, thus effected, will be an amount greater than one-third of the whole debt.

In view of the fact that since the adjournment of the Legislature of 1880, for the first time, the financial management of the State's revenue from the year 1864 and continuously up to the present, has been brought into question before the people from and by whom the members of your Honorable Body were so recently elected, I deem it my duty to submit to the present General Assembly a brief review of the legislation upon which that management has been based.

Previous and up to the year 1864, there had accumulated in the vaults of the Treasury Department bonds and certificates of indebtedness, which the State had paid, to the amount of \$5,649,656.83. These bonds and certificates, with the exception of \$154,550.00 in Baltimore City Stocks, and to the amount of \$5,495,106.83, consisted exclusively of her own obligations and debts, which she had paid and redeemed, and deposited in what is called a "Sinking Fund," and upon which she annually transferred to said fund, from her general treasury, the accruing interest to be invested in like manner.

The General Assembly of 1864, with the approval of the then Governor—Act of 1864, chapter 285—directed \$4,495,106.83 of these bonds to be canceled and destroyed, and to that extent relieved the Treasury of—in the language of Ex-Gov. Grason, Chairman of the Finance Committee of the Senate in 1852—"an imaginary creditor, and the Treasurer of the employment of counting his liquidated bonds, and calculating how much interest he would be entitled to receive from himself."

Up to that period, though the direct tax had been heavy, no special tax for the payment of a particular debt had ever been levied upon her people; and since that period no tax has been imposed for the payment of principal or interest of her previously created debt.

The existing "Defence Loan," to which I have referred, was created in 1868, for the payment of bounties, and a bounty tax of  $5\frac{1}{2}$  cents on the one hundred dollars was imposed, and dedicated to the payment of this loan. The Comptroller, in his report for the year 1867, states that "the amount disbursed for bounties from 1864 to 1867, inclusive, is shown to be \$4,196,864.25, and the receipts are \$2,364,107.94, being a disbursement of \$1,822,756.31 in excess of receipts."

The entire amount of bounty tax collected from January 1864 to September 30th, 1880, embracing the period during which bounties were being paid, is \$4,057,040.96. The entire amount disbursed during the same period for interest on the "Defence Loans," is \$2,443,724.26, showing balance of this

tax after the payment of interest to be \$1,613,316.70, or \$209,439.61 less than the \$1,822,756.31 disbursed in excess of receipts, on account of bounties and bounty or defence loans, as early as the year 1867.

The Act of 1864, chap. 285, referred to above, completely modified all previous laws and plans relating to the sinking fund, and to that mode of paying the debts of the State before maturity.

Gov. Lowe, in his message to the Legislature of 1852, pointedly describes the policy, thus modified and now sought to be reinstated, in these words: "Will you send Maryland into the market, as a stock-jobber, to speculate in her own securities? She has agreed to pay one hundred cents in the dollar *when due*. Shall she appear on 'change, loaded with the gold of a tax-ridden people, to pay a premium on her own paper? If, at the expiration of fifteen years, the money is to be in hand, will not her bonds appreciate to the highest point? \* \* \* Every dollar which she would pay as a premium on her bonds, would be, in fact, a bonus for the privilege of anticipating her obligations. What private capitalist would cancel his liabilities upon such a princely scale?"

The wisdom and economy of the enactment of 1864, chap. 285, by the Republican government of that year, subsequently became practically so manifest, that the Democratic Legislature and Governor in 1872, by the Act, chap. 276, canceled and annihilated the remnant of the sinking fund left uncanceled by the previous Act, and the small increment thereto since 1864.

Other loans have been created since the Defence Loan of 1868, and in every instance the Act creating the loan has provided a tax dedicated to its payment; in each instance, however, the annual tax imposed is not very much in excess of the annual interest upon the loan. These loan or debt taxes are now in all  $8\frac{3}{4}$  cents on every \$100, and, with the tax of 10 cents for schools, constitute the annual direct tax upon the assessable property in the State. No direct tax is levied for the support of the government of the State. Her other sources of revenue are chiefly licenses, collateral inheritance taxes and tax on commissions, &c.

The State debt created previous to the year 1868, now outstanding, and for which no tax provision is made, is \$5,684,505.93—the State debt issued since, and including the year 1868, now outstanding, for which debt-taxes are provided, is \$5,573,054.76. The constitutional guarantee for the payment of this debt of \$11,257,560.69 is, that the State's investments in Internal Improvement Companies, and the State tax levied to pay off the public debt shall not be used or appropriated until the interest and debt are fully paid, or the sinking fund shall be equal to the amount of the outstanding debt. (See sec. 34, Art. 3.) This constitutional guarantee is equally complied with, if the guarantee given, when used, is applied to the payment of the interest and principal of the debt, or to either, whether the debt paid is canceled and destroyed, or put and kept into the "Sinking Fund." At least such was the view taken by the Governor and the Legislature in 1864 and 1872, and acquiesced in, with perfect unanimity, until now fault is found with the obliteration of the sinking fund, and the inquiry is gravely—no, not gravely, but loosely made—what has become of the loan-taxes?

The answer is, or rather the answers are to be found in the following statement, which I have carefully compiled from the Comptroller's books:

---	-----------------------

Amt. of the public debt paid out of the general resources of the Treasury, since Sept. 30th, 1868 .....	\$5,892,494 27
---	----------------

From this statement, and the foregoing review, it will be seen that since 1864-'68, the constitutional guarantee for the payment of the public debt has been strictly observed—that the credit of the State has been sacredly maintained—that a large payment has been made upon the debt of the State in excess of taxes levied and assets dedicated to that purpose—that wise and practical legislation, and economical, efficient and faithful management have prevailed—and that much has been done to lessen the debt of the State, and lighten the burden of taxation ; yea, more, I venture to say, than has been accomplished in any like period of her previous history. The gradual rather than the rapid extinction of her public debt is her true policy—indeed, if her loans were issued, redeemable at her pleasure after or within a fixed period, and not called in too rapidly, she could take advantage of such opportunities as the present to fund her indebtedness at a lower rate of interest, and whenever her surplus funds would justify, she could liquidate her indebtedness at par.

The redemption of a debt before maturity, and often at a high premium--this is the meaning of "Sinking Fund"—is the payment of more than you have contracted for, and the maintenance of an exorbitant rate of taxation to enjoy the privilege. It is not only impracticable, but utterly impossible to practice the "Sinking Fund" theory recently advanced at the present rate of State taxation—in order to do so, the rate must be increased at least one hundred per cent. above the present  $8\frac{3}{4}$  tax for debt-purposes. Even if such a system were necessary to compel economy in Legislative expenditures, the latter is the least expensive luxury.

The State is not, and cannot be in any trouble over her indebtedness. She has a real, not a *sinking* fund ; a substantial

debtor, not an "imaginary creditor," sacredly dedicated to its payment. Her bondholders know, her people know, everybody knows that her Internal Improvement properties will more than pay it, at any time that it is demandable, and that they cannot be used for any other purpose. And this is the real and true reason, I take it, why her loan-taxes have been so lightly imposed upon her people, that, to-day, they do not keep down the interest on her debt—and yet, what State maintains a higher credit?

Of the State's internal improvement properties, there are three classes: The first is of value and productive of revenue and consists of stocks and bonds of the Baltimore and Ohio Railroad Company, and stocks of its Washington Branch, and of the Annapolis Bank, and of the Annapolis Water Company (the last of which has lately become productive), and of a mortgage from the Northern Central Railway Company amounting, in all, as I have stated above, to \$3,461,085.70. The second class is of value that is indefinite, and is unproductive, and the most of it has been unproductive for many years. It consists of bonds and mortgages of the Susquehanna and Tide-water Canals, bonds of the Columbia and Port Deposit Railroad Company, stocks of the Chesapeake and Delaware Canal Company, and of the Bohemia Bridge Company, and of the Baltimore and Fredericktown and of the Baltimore and Yorktown Turnpike Companies, and of the Baltimore and Potomac, and the Annapolis and Elk Ridge Railroad Companies, and of the stocks and bonds of the Chesapeake and Ohio Canal Company; amounting in all to the par value of \$8,645,005.40. The third class is not only unproductive but is regarded as valueless, and consists of stocks of the following railroad companies, to wit: Baltimore and Drum Point, Dorchester and Delaware, Easton Shore, Kent and Queen Anne's, Kent County, Maryland and Delaware, Philadelphia and Baltimore Central, Southern Maryland, Worcester and Somerset, Worcester, Wicomico and Pocomoke, amounting in all to the par value of \$890,827.00. There is also another class that is not only utterly worthless, but of which the only evidence that I can find, consists of such entries in the Comptroller's Books as:

Stock of the Potomac Company.....	\$120,444 44
Loan to the President and Directors of Potomac Company.....	30,000 00
Interest thereon to May 16th, 1825 .....	13,280 00
Nanticoke Bridge Company.....	4,333 33
Chesapeake Steam Towing Company.....	25,000 00
Bonds installed and not installed.....	10,000 00
Due from Penitentiary for premium and in- terest.....	5,097 36
Stock of the Elkton Bank.....	10,000 00
Dividend Bond No. 58 of B. & O. B. R. Co.....	80 00
	<hr/>
	\$ 218,235 13

Being upon his books the Comptroller must, and does, bring forward and set forth, in each annual report, the above lot of worthless entries and the valueless stocks mentioned in the third class. I respectfully suggest that the present General Assembly authorize the Comptroller, in his discretion, to omit them from his future reports.

The Constitution, Sec. 3, Art. 12, authorizes the Board of Public Works, subject to such regulations and conditions as the General Assembly may from time to time prescribe, and with provisos therein set forth, to sell the State's interest in works of internal improvement. Her interest in the properties enumerated in the second class above being unproductive and of value chiefly, if not only, because it gives her the control of the directory and management of the most important of these works, it is proper that I, as Comptroller, and ex-officio member of the Board of Public Works, should indicate to the General Assembly that my views are not adverse to a sale of her interests in some of these works. Her mortgage of \$1,000,000.00 on the Susquehanna and Tide-water Canals was at one time a productive asset; but, when it ceases to be productive, her only remedy is to take possession and management of the canals; a valueless remedy to her—she already has one such elephant on her hands—but valuable to the Reading Railroad Company, that now has a lease of these canals, and, perhaps, to the Pennsylvania Railroad Company, and other companies that may be looking after the coal regions of Pennsylvania.

Her ownership of the majority of the stock of the Chesapeake and Ohio Canal Company has never been, and it is more than likely, never will be an interest paying investment, but has ever been, is to-day, and ever will be, a disturbing element in her politics. There are rival interests anxious to obtain the control of this canal. Let's see whether and what they are willing to pay the State for it. The bonds of the Columbia and Port Deposit Railroad Company and the stocks of the Chesapeake and Delaware Canal Company were at one time productive assets, but have paid nothing for a number of years. The stocks of the Baltimore and Fredericktown Turnpike and the Baltimore and Yorktown Turnpike Companies are fitful with their dividends and paid nothing last year. The stocks of the Baltimore and Potomac Railroad Company have never paid a dividend. The stocks of the Annapolis and Elk Ridge Railroad Company and of the Bohemia Bridge Company were authorized to be sold by the last General Assembly, and have been sold conditioned upon the payment of the money; the conditions have not been as yet, but maybe, complied with.

The Maryland Penitentiary, instead of drawing its appropriation of \$10,000, made a payment of \$7,326.43 to the State last year.

The State Fishery Force paid expenses and salaries and increased the "Oyster Fund" \$6,522.09 last year. Year before last it decreased this fund \$22,174.03. Local legislation has diverted from the State into the county treasury the revenue from scooping licenses in several of the counties, the waters of which are commanded by police sloops at the expense of the State. These local laws should be repealed, or the State relieved of the expense of protecting these waters. The revenue from tonging license is paid to the schools of the several counties; a very good application of this fund. The Police Steamer and most of the sloops are old and constantly needing repairs. The oyster, the oyster navy and the oyster interests of the State are sources of fruitful suggestions, which I hope will ultimately result in practical and profitable legislation upon this important article of commerce and the various interests involved in it.

The total net earnings of the Tobacco Warehouses last year, exclusive of salaries paid to the Inspectors, were \$10,585.12. The Inspectors' salaries are \$9,000.00. This is an improvement over the year before, in which the salaries of the Inspectors exceeded the net earnings. As far as the State's revenue is concerned, it makes but little difference what becomes of the State inspection of tobacco. It affords cheap warehousing to the tobacco-grower. The tobacco warehouses and wharves are properties of considerable value, built it is claimed by revenues derived by the State from the tobacco-growers. If the State inspection system is continued, the Inspectors should look to the revenues for their salaries, as well as the other expenses. If the system is abolished, legislation will be needed in regard to the tobacco properties.

The net earnings to the Treasury from the the Live Stock Scales were \$4,893.73, and \$8,542.44 less than the previous year; and from the Hay Scales, \$1,825.62, about the same as the year previous.

The receipts from and disbursements to the Grain Weighing Department are always equal, and never enough to pay the salaries of the Weighers.

The receipts from license and tax upon premiums paid by foreign Insurance Companies were \$52,868.30, being an increase over the previous year of \$5,051.19.

The receipts from Sheriffs were \$2,617.77, less by \$1,550.89 than the previous year.

The receipts from Registers of Wills were \$129,545.74, and \$63,948.14 less than the previous year.

The receipts from Clerks of Courts, and other sources named in Table No. 2, were \$460,058.50, and \$14,855.28 greater than the year previous.

The receipts from Notaries were \$1,936.00, an increase over the year previous from this source of \$1,212.00.

The receipts from Tax Collectors were \$898,139.55, an increase over the previous year of \$58,111.00.

The receipts from tax on Corporations last year were \$72,463.95—year before last they were \$48,801.41—increased

receipts from this source the past year were \$23,667.54. The increase in the basis of assessment of corporations in 1879 over 1878 was \$5,660,065.76, and over 1877 was \$12,334,753.76. The report of the State Tax Commissioner for last year will show the net increase of this basis in 1881 over 1879, to be \$6,472,267.44. The exemption of Building Associations from tax on mortgages by the Act of 1880, abated the assessment of 1879 \$4,415,245.75; otherwise the increase would have been that much more. These figures exhibit the diligence and industry which that officer brings to the discharge of his duties and the utility of his office.

The disbursements from the contingent fund of the Treasury and of the Comptroller will be found in detail in Tables Nos. 20 and 21, on pages 69 and 74.

Section 26 Article 4 of the Constitution gives to the Clerks of the several Courts of this State the power to appoint, subject to the confirmation of the Judges of their respective Courts, as many deputies as the said Judges shall deem necessary, whose compensation shall be according to law. The law, Section 13 Article 18 of the Code, directs that the Comptroller shall from time to time fix the compensation of these deputies. I respectfully suggest that it would be much better and more satisfactory, if the compensation were fixed by the Judges, and that the law be so amended. The compensation allowed varies, and it should vary according to the importance and extent of the duties performed. The Comptroller has no opportunity to judge of the duties. The Judges have.

The Constitution, Section 52 Article 3, declares that the General Assembly shall appropriate no money out of the Treasury for the payment of any private claim against the State exceeding \$300.00, unless said claim shall have been first presented to the Comptroller, together with the proofs, and reported upon by him. The same instrument, in Section 33 of same Article, declares that the General Assembly shall not pass special laws for refunding money paid into the Treasury or releasing persons from their obligations or debts, unless recommended by the Governor or officers of the Treasury Department. These are the two and only instances

in which the duty is imposed upon the Comptroller to interpose himself between the Constitution and the Legislature; and it is imposed in these instances, because he has officially knowledge of the *fact* that the Constitutional requirement has or has not been complied with—in the latter instance, if not by the officers of the Treasury, he should know whether by the Governor. The Comptroller is an Executive officer and must not assume Legislative or Judicial powers, or discharge Legislative or Judicial duties. The Bill of Rights forbids him. Entertaining these convictions, I have obeyed and shall continue to obey, as long as I am Comptroller, the Legislative will whenever it is embodied in an Act of Assembly, except I know, as a fact, that the above provisions of the Constitution have not been complied with, or am informed by judicial interpretation, that the act is unconstitutional. Two cases have been presented to me since the adjournment of the last Legislature, in which I have interposed and declined to issue my warrant for the payment of the claims; one case under each of the above sections of the Constitution. The first is the case of Samuel Cacy, and the Act of 1880, Chapter 383, directs the Comptroller to issue his warrant for five thousand dollars for services recited in the Act. Section 51 was not complied with in this instance. The second is the case of Andrew J. George, and the Act of 1880, Chapter 376, directs the Comptroller to issue his warrant 'or two hundred dollars, money paid in error. Section 33 was not complied with in this instance. I regret that these claims could not be paid, because of these inadvertent difficulties in their way, and commend them to the present General Assembly.

Full exhibits of all the operations of the Treasury Department during the last fiscal year, will be found in the Appendices, and an Index at the end.

Respectfully submitted,

THOS. J. KEATING,  
Comptroller.

*Making an aggregate for which interest has to be provided of.			\$11,257,560 69			

As an off-set to this debt, the State holds the following Bonds and Stocks, on which interest or dividends are promptly paid, to wit:

Stock of the Baltimore and Ohio R. R. Co.....	\$ 968,615 70
Stock in Washington Branch B. & O. R. R. Co.....	550,000 00
" Farmers' National Bank of Annapolis.....	46,470 00
" Annapolis Water Co.....	30,000 00

	\$3,695,163 78
<del>22</del> Balance, after productive Stocks held by the State and the Sinking Funds are deducted.....	\$7,562,396 91

The Debt was reduced during the Fiscal Year ended September 30th, 1881, by redemption conversion and exchange, as follows:

5 per cent. currency, chap. 104 of 1827.....	\$24,000 00
15 per cent. Sterling, chap. 386 of 1838.....	50,000 00
	\$74 000 00

\* Of this sum, \$4,185,555.58 is Sterling Debt, on which the interest is payable in London in gold or its equivalent.

† In the redemption, conversion or exchange of the Sterling Debt, the calculation being required to be made at the rate of \$4.84 per £ sterling as per Section 13, of Article 94 of the Code, the increase of the Maryland State Loan by exchanges, and Sterling converted into currency, as per Ch. 41, of 1847 during the Fiscal Year, amounts to \$54,450.00 although the Sterling Debt seems to be reduced but \$50,000.00, the Sterling Debt having been always computed in this statement at the rate of \$4.44 4-9 per £ sterling.

‡ For this balance of \$7,562,396.91, the State has as an off-set her unproductive stocks, amounting to \$26,112,298.46 and \$1,402,000.00 due from Accounting Officers and Incorporated Institutions.
